

REMARKS/ARGUMENTS

This preliminary amendment is made to add a reference to the Parent PCT application in the specification and to eliminate multiple dependency from the claims. No new matter has been added.

Applicants enclose a printed copy of the sequence listing and a computer readable form of the sequence listing. The undersigned certifies that the printed copy and the computer-readable diskette have the same content. Entry of the printed sequence listing in the specification is requested.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Marina T. Larson", is written over a horizontal line.

Marina T. Larson, Ph.D
Attorney/Agent for Applicant(s)
Reg. No. 32038
